Work Certificate Sebastian Remm

Date: 06.04.2023

Dear Sir or Madam,

Le Wagon is a world-renowned company that offers a variety of Web Development and Data Science courses in over 40 cities around the world. The centrepiece is the nine-week intensive course happening on campus.

Sebastian Remm, born on 23.10.1988 in Gießen, Germany, worked for Le Wagon GmbH as a Teacher and Batch Manager under a part time permanent contract from April the 1st, 2022 to March the 31st, 2023. Beforehand, Mr. Remm graduated from the bootcamp in Web Development in December 2020 and afterwards, from January the 1st 2021 to March the 31st, 2022, he was hired as a Lecturer and a Teacher Assistant and accompanied our students through the daily bootcamp intense routine for our Web Development courses. Then, he evolved as a Batch Manager from April the 1st, 2022 to March the 31st, 2023 to take care of the coordination of a whole teaching team and manage full time batches of Web Development in order to give the best experience to our students quarter after quarter.

His evolution within the structure of Le Wagon proves his professionalism, his motivation to teach and contribute to helping others achieve their goals. Sebastian is seen within the team and our community as a very helpful and skilled teacher, always eager to share his knowledge and as an efficient and solution-oriented manager.

In this course, Mr Remm was deployed in the following areas: Rails, HTML & CSS, Javascript and Building Software.

For us, it is a real pleasure to work with Mr. Remm and we wish him all the best for his future professional development.

Kind regards,

Titiana Benassi
People Manager, Le Wagon GmbH
